2.18.1 Disabled, Dilapidated or Stored Vehicles. Any disabled vehicles, vehicles not used on a regular basis, or dilapidated vehicles located upon any portion of the property or a Lot are a nuisance and absolutely prohibited unless they are fully enclosed in a Board approved structure. In the event an Owner permits an Improvement to fall into disrepair, or to create a dangerous, unsafe, hazardous, unsightly or unattractive condition, then the Board or Grantor, after thirty (30) days prior written notice to the offending Owner, shall have the right to enter upon that Owner's property to correct such condition. Owner shall be obligated to reimburse the Board or Grantor for all of the costs of the corrective action as set out in the Master CC&R's.

No signs other than Grantor's shall be placed in the Common Area without the written approval of the Board.

2.25 Additional Easements. In addition to the easements shown on the recorded plat, an easement is further reserved and each Lot shall be subject to an easement five (5) feet on each side of all other Lot lines for installation and maintenance of irrigation and drainage.

2.26 Exemption of Grantor. Nothing contained in these CC&R's shall limit the right of Grantor; to subdivide or re-subdivide any portion of the Property owned by Grantor; to grant easements, licenses, or to reserve rights-of-way with respect to Common Areas; to complete excavation, grading and construction of any portion of the Common Areas, or Property owned by Grantor; to alter construction plans and designs; to construct additional Improvements; to erect, construct and maintain structures and displays as necessary for the conduct of Grantor's business. Prior to transferring title to a Building Lot, Grantor shall have the right to grant, establish and/or reserve on that Building Lot additional licenses, reservations and rights-of-way to Grantor, to utility companies, or to others. Grantor may use any structures owned by Grantor on the Property as model home complexes or real estate sales or leasing offices. The rights of Grantor may be assigned by Grantor to any successor in interest by a written assignment recorded in the Office of the County Recorder.

2.27 Water.

2.27.1 Water Rights. Each party accepting and recording a deed to any property in this Subdivision or occupying any property in this Subdivision acknowledges and understands and agrees to the following:

- A) That such property is in an irrigation district, (hereinafter "District");
- B) That the water in District has not been transferred from this property;
- C) That each Owner of any Lot is subject to all Assessments levied by District, the City of Nampa, or other water supplier and/or the Association;
- D) That each Lot Owner shall be responsible to pay any levies attributable to that Lot by District, the City of Nampa, or other water supplier and/or the Association;
- E) That water Assessments are a lien upon the Lot;
- F) Each Owner or occupant of any Lot specifically releases and waives any and all claims of any kind against Declarant, its agents, employees, officers, members and directors relating to irrigation

water, or the lack of it, or the quantity or quality of it in this subdivision.

2.27.2 Irrigation District Agreements. The Lots in this Subdivision shall be subject to any existing or future recorded agreements or license agreements with the City of Nampa, Pioneer Irrigation District and/or any other Irrigation District regarding this Subdivision, irrigation easements, irrigation water, or other related matters.

2.27.3 Pressurized Irrigation System. Irrigation water, when seasonally available, will be supplied through the City of Nampa via a pressurized urban irrigation system (PUIS). Each individual Lot will have a control valve on the pressurized irrigation system to allow irrigation water onto that individual Lot. The PUIS shall be owned, maintained and operated by the City of Nampa with all operation and maintenance costs billed to Lot Owners. Each Lot Owner shall pay for the costs of maintenance and operation of the PUIS as billed by the City of Nampa.

Each Lot Owner shall be responsible for his own irrigation system on his own Lot downstream from the control valve (e.g. filters, screens, sprinkler lines and sprinkler heads). Each Owner shall install a sufficient sand screen or similar filter set up to keep sand and other irrigation ditch debris out of the Owner's irrigation system. Each Owner shall clean and maintain their own screens and filter systems. Any Owner damaging the main PUIS system shall be responsible for all of the costs of that damage.

2.27.4 Water Costs. All irrigation water costs (including water costs for all Common Area Lots) shall be paid by the Lot Owners either from individual Assessments against each Lot by the City of Nampa or other water suppliers; or, if the water supplier provides one billing to the Association, then the water costs shall be paid as part of the Association's Assessments to Lot Owners. Each Lot Owner shall pay his or her share of all costs regardless of actual water used. Each Lot Owner shall use all reasonable efforts to conserve and not waste irrigation water.

2.27.5 Water Unreliable. The area of the country where this subdivision is located is desert. Irrigation water is not always reliable and the water is not unlimited. Irrigation water may not be available due to drought, harsh weather conditions, government actions, system breakdowns, transmission failures, overuse by Lot Owners or any other causes. [As one

example; In 1977, a drought year, some irrigation ditches ceased carrying any water in July of that year.]

2.27.6 Rotation. No Lot in this Subdivision shall have any right to, or assurance of, a continuous or unlimited supply of irrigation water from the PUIS. Nor is any Lot guaranteed enough water from the PUIS to irrigate all of the landscaping on the Lot. Each Lot shall be subject to, and each Lot Owner by accepting a deed to a Lot in this subdivisions agrees to be bound by, and to comply with, any rules or regulations which may be established for the use and rotation of irrigation water set by the Association, the City of Nampa or by the Irrigation District. All Lot Owners and occupants shall follow said water rotation schedules and any rules promulgated relative to the use of irrigation water. Failure to adhere to the rotation schedule or rules may, following notice from the Board, the City or the District result in suspension of the right to use irrigation water.

2.27.7 No Liability For Lack of Water. Neither the City of Nampa, the Association, the District nor the Declarant (or any members, employees, agents, officers or directors thereof) shall have any liability OF ANY KIND to any Lot Owner, tenant, Association, member of the Association or any others for any losses or damages relating in any respect to the irrigation system, or irrigation water, or the lack thereof, including but not limited to damages to, or loss of lawns, landscaping, trees, shrubs, gardens or the like caused by the lack of, or shortage of, irrigation water. Each Owner accepts the risk of loss or damage due to the unavailability, shortage or lack of irrigation water. Each Lot Owner, by accepting a deed to the property, and each tenant or occupant, by occupying the premises, specifically waives any and all claims of any kind against the Association, District and Declarant, their agents, employees, officers Directors, Members and/or shareholders for any loss or damage relating in any respect to the water, or the supply of water.

2.27.8 Extended Season Water. Extended season irrigation water (water which may be provided before or after the normal irrigation season or to supplement the irrigation water) may, if available or provided for, be provided to the subdivision by the City of Nampa and/or other water supplier. No Lot shall have any right to extended season water, and neither Declarant, District or the Association shall have any obligation to provide extended season or supplemental water. Any facilities needed by the City of Nampa, the water supplier, District or Association for this extended season water shall be considered to be part of the PUIS and shall be governed by this Declaration. All

costs of extended season or supplemental water (if there is any such water) shall be included as a cost of operation of the PUIS and shall be assessed to the Lots in the subdivision as all other costs are assessed. Extended season water may, or may not, be provided to the subdivision.

2.27.9 Irrigation Water Not Drinkable.

WARNING!
IRRIGATION WATER IS NOT DRINKABLE

Notice is hereby given to each Owner in this subdivision that the water in the pressurized irrigation system is NOT fit for human consumption. It contains untreated ditch water, which may contain dirt, hazardous wastes, dangerous farm chemicals or disease-causing organisms. Drinking of the irrigation water may make a person sick, and while less likely, may result in death or permanent disability.

NEVER DRINK WATER
FROM THE PRESSURIZED IRRIGATION SYSTEM

It is the duty of each Owner to:

- A) Educate all family members, guests, tenants and invitees that the water from the pressurized irrigation system is not drinkable;
- B) Ensure that ALL of the faucets and risers in the pressurized irrigation system are adequately marked, and if not marked to check with the local health department to determine what type of markings are required by that health department or agency;
- C) Not remove any existing tags or other warning markers from the pressure irrigation risers;
- D) Not install, or maintain the installation of, any cross connections between the pressurized irrigation system and the drinking water system unless the cross connection has been approved in writing by the Association AND the supplier of the irrigation water AND the supplier of the drinking water AND the cross connection back flow prevention device meets all relevant governmental and building code requirements.

No Liability for Quality of Water. Neither the City of Nampa, the Association, the District nor the Declarant (or any members, employees, agents, officers, shareholders or directors thereof) shall have any liability **OF ANY KIND** to any Lot Owner, tenant, Association, member of the Association or any others for any losses, damages, or personal injuries relating in any respect to the quality of the irrigation water, or the ingestion of, or contact with, the irrigation water. Each Owner, tenant and occupant accepts the risk of using the irrigation water and waives any and all claims relating thereto.

2.28 Lot Grading and Drainage Requirements. Each Lot Owner shall grade and maintain their individual Lot to prevent the runoff of storm water and irrigation water onto adjacent Owner's Lots. Each Lot Owner shall have the specific duty to prevent any water (whether storm or irrigation) on the Owner's Lot from getting to or draining onto any neighbor's adjoining Lot.

All Lots are to be graded at the time of building (and such grading shall be maintained thereafter) so that:

- A) Drainage of storm and irrigation water is kept away from adjacent Lots;
- B) The Lot will drain sufficiently away from the foundation with a proper slope; and,
- C) All drainage is in accordance with local building code requirements.

2.29 Common Areas; No Liability. The Common Area lots in this subdivision are as follows:

Lot 55	Block 3	Micro-Path Lot and Landscape Area;
Lot 72	Block 3	Landscape Buffer Area;
Lot 15	Block 5	Micro-Path Lot and Landscape Area;
Lot 12	Block 6	Micro-Path Lot and Landscape Buffer Area;
Lot 15	Block 7	Micro-Path Lot (that portion adjacent to Lot 16, Block 7); Landscape Buffer Area.

Each Lot Owner by accepting a deed to a Lot in this Subdivision and each occupant by occupying a Lot, and each user of the Common Areas by using the Common Areas, specifically agrees that the Declarant, its agents, officers, employees and shareholders shall have no liability of any kind whatsoever relating in any way to the use of the Common Areas including, but not limited to, any accidents or bodily injuries which result from the use of the Common Areas, and all claims relating thereto are specifically waived and released. Nor

shall the Association, its officers, agents, or employees have any such liability. All Lot Owners, occupants and users of the Common Areas specifically assume the risk and waive any and all claims relating to the use of the Common Areas.

2.29.1 Micro-Path Lots and Easement Areas: The Micro-Path Lots identified above are Common Area Lots created for the purpose of maintaining a Micro-Path with a landscaping area. The easement area on each lot shall be landscaped as approved by the City of Nampa. Each lot and easement area shall be for the ingress and egress of pedestrian and bicycle traffic and shall be for the benefit of all Lots in Crestwood Subdivisions. These lots shall be owned and maintained by the Association and such maintenance shall comply with all Nampa City requirements and regulations for Micro-Path easement areas. These Micro-Path easements and the maintenance responsibilities relating thereto shall not be dissolved without the express written permission of the City of Nampa. Motorized vehicles are absolutely prohibited in any Common Areas (except handicap equipment).

2.30 Park Development Exaction Fee Agreement. All Lots in this Subdivision shall be subject to that "Park Development Exaction Fee Agreement" entered into between Declarant and the City of Nampa which obligates all Lot Owner's to pay a fee to the City for City of Nampa parks at the time a building permit is issued. This Agreement was recorded the 22nd day of July, 2002 in Canyon County as Instrument No. 200233008 and is incorporated herein as if set forth in full.

2.31 Renting/Leasing. No home (or any other part of the property) owned by a Lot Owner in this subdivision shall be rented or leased to third parties except where: (A) the Tenant has acknowledged, in writing, receipt of a copy of these CC&R's; (B) the Tenant has executed a written lease or rental agreement wherein the Tenant has affirmatively agreed to be bound by the terms and conditions of these CC&R's, specifically including but not limited to the Lot landscaping and maintenance requirements; and, (C) the Lot Owner has provided in the lease or rental agreement that the Lot landscaping will be maintained in accordance with the CC&R's.

During any rental or lease term, the Lot Owner shall remain primarily responsible for the condition of the property, as well as for all Assessments and all other obligations under these CC&R's. In addition, the Lot Owner shall be responsible for any damages caused by the Lot Owner's Tenants or their guests to any Common Areas or other common facilities owned or maintained by the Association.

DECLARATION OF ANNEXATION

CRESTWOOD ESTATES SUBDIVISION NO. 2 (11-15-2002) Page 14 of 15

In the event that the Lot Owner and the Tenant fail to maintain the landscaping and the exterior appearance of the property then the Declarant or the Association, after 30 days notice to the Lot Owner (with a copy to the Tenant, if known), shall have the right to perform that maintenance as a corrective action and the Lot Owner shall be responsible for all of the costs thereof as a Limited Assessment as provided in these CC&R's.
